### Death of Mrs. Nimits.

Word was received here on Thursday of the death of Mrs. F. A. Nimits at Marinette Thursday morning. Mrs. Nimits had not been in good health for the past two years, suffering from heart trouble and complications. Rev. and Mrs. Nimits and family were formerly residents of this city, he being pastor of the Methodist church for several years, preceding their removal to Stevens Point. They had lived in Marinette only since last fall. Besides her husband the deceased is survived by her daughter, Mrs. J. H. Linderman, of Grand Rapids, and a son, Charles, at home. The funeral was held Monday. Services were conducted at Marinette and interment made at Appleton.

### Illegal Fishing.

Sam Merwin and M. A. Moller were arrested last Saturday by Deputy Game Warden Cole on a charge of dynamiting fish in the Wisconsin river. They were taken before Justice Pomainville where both of the charge pleaded not guilty to the charge against them and an adjournment was taken until next Saturday.

### COLD STORAGE PLANT INCREASES CAPITAL STOCK

(Marshall Herald, April 6, 1912.)

Continuing the old business under a new name and increasing the capital stock from \$25,000 to \$100,000 is the result of a re-organization of the Blodgett-McCreedy Cheese Company which henceforth will be known as the C. E. Blodgett Cheese Co. The announcement, which was made the first of the week has much significance as it means that Marshfield will soon be the home of one of the largest and best equipped cold storage plants in Central or Upper Wisconsin. Mr. C. E. Blodgett, the central figure in the enterprise, realizing the needs bound to follow in this rapidly developing dairying section was not slow in figuring out that two essentials were lacking to bring about desired results, first more capital and secondly more cold storage room, especially when a part was to be used in the handling of butter and eggs. Hence the re-organization and increased capitalization. Financially the new concern will have a rating far above the standard enjoyed by but few like concerns.

The Blodgett-McCreedy Co. was incorporated a little over two years ago since which time it has been a strong competitor in the wholesale cheese market. Its cold storage built at the time cost in the neighborhood of \$30,000 and took a place among the model institutions of the kind in the state. It is of solid brick, arranged and constructed on the most approved plans. In addition to the present building the first important step to be taken by the new organization will be the building of another addition 48x36 feet, three stories with basement, the new part to be used principally for the storing of butter and eggs. The old part will be somewhat remodeled and the whole converted into an up to date mechanical cold storage capable of taking care of the items above named in carload lots and many of them. The reader will see at a glance the advantages of such an institution. It is a convenience long ago needed here and the knowledge of such a plant in our midst will act as a stimulus to dairying interests in this section. Plans and specifications have already been drawn and the contract let to the Krasin Brothers for building the new addition, work on same to begin in early summer.

In addition to the Marshfield plant the company owns a branch at Oscoda which is a valuable feeder to the home concern. All cheese handled bears the registered mark "Cloverdale" and the refrigerator cars in which it is shipped lettered with the name of the firm.

The promoter of the new organization is one of Marshfield's most progressive citizens, a man foremost in everything that adds to the up-building and welfare of the city's commercial greatness. His property interests are varied and all of a kind that reflects his confidence in the growth and stability of the city in which largely through his endeavors he has helped to make what it is. Another pleasing fact to be said of him is that he is the largest individual tax payer in Marshfield.

The Herald is proud of men with such spirit and hopes success will crown his every effort in the step just taken. If there were more of his enterprise and activity the future of Marshfield could rest easy.

### Baseball Matters.

The people of Merrill are figuring on putting out a good baseball team this coming summer, and have already started on the matter. They held a meeting there last Sunday and in commenting on the matter the Herald says:

Merrill has a bright season in view this year and there are no valid reasons why the city should not be represented on the base ball map this season. Wausau has spotted a place in the Wisconsin-Illinois league and with the base ball spirit of that city again in the horizon, will aid in maintaining and increasing the interest in that sport locally. Grand Rapids, Tomahawk, Rhinelander, Antigo, Marshfield and the Nekoosa papermakers are all planning for base ball and Merrill promises Sunday to do no less. Every fan, in whom the glove and bat has not lost their fire, should be present at the meeting and thereby aid in making the meeting a successful one and a good team for Merrill assured for this season, which would also mean the developing of better material for next year's team.

### Mardi-Gras Day in a Musical Comedy.

The efforts of two pairs of young lovers to outwit their elders by making use of the fun and gaiety of the Mardi-Gras festival form the minor romance of "Louisiana Lou," which will be seen soon at Daly's Theatre. This is the first time the famous auto Leuten carnival of the Crescent City—a carnival that takes hundreds of thousands visitors there every year—has been put on the stage.

The authors of "Louisiana Lou" did not go to New Orleans for their scene nor to the Mardi Gras for their scene simply with a view of being picturesque. Their plot is so entwined with the Mardi-Gras maskings and fun that it will really be seen why the Chicago critics have heaped high praise upon "Louisiana Lou" as a play as well as in its aspect as a show.

Louisa-Lou and Jack Koukarny have been betrothed since childhood as a sentimental reflection of the warm friendship between Jacob Lidofski, Louisa-Lou's foster-father, and Roderick Koukarny, Jack's dad. But the children will otherwise. She grows up a beautiful girl and believes that old Lidofski is her real father. Jack is a fine big fellow, but finds himself, on the very eve of his wedding, deeply in love with Delia Fair, who is really his aunt by marriage, although she is a girl of 17 years.

Louisa-Lou has met in Paris, where she was at school, Nixon Holmes Jack's chum and business partner, and fallen in love with him, as Nixon with her. But the latter says nothing in the matter, believing that his pal Jack loves Louisa-Lou. It is when all four learn that the game of cross purposes played by Fate need not be carried out if they be wise and active that the plot to outwit the parents begins. Jack is chosen king of the Mardi-Gras, through the influence of Koukarny and Lidofski, who naturally expect him to make Lou his queen. But Jack passes the official sceptre to Nixon, who, when he seeks to see it, finds that the ideas of Koukarny and Lidofski are not to be so easily shaken.

### Let the Women Decide It.

It has been suggested that the women of Wisconsin be allowed to vote this fall on the proposition of equal suffrage, and time decide for themselves whether or not they want to vote in the state of Wisconsin.

This idea has some good points about it, inasmuch as it would put the matter right into the hands of the ladies themselves, where it properly belongs.

There is an organization, composed largely of women, who are in favor of woman suffrage. There is another organization, composed largely of women, who are against woman suffrage. Both organizations are sending out large quantities of literature to the press of the country urging their views on the public.

The consequence is that most men are a trifle at sea regarding just what the majority of women want on the matter. It is a well known fact that a large number of women are indifferent on the subject, not seeming to care whether they are given the right to vote or not.

By voting on the matter they could demonstrate just what they want. It is safe to say that the majority of the men of the state do not care a great deal one way or other.

### Murder in Adams County.

James Janeeck of the town of Rome, Adams County, was brought to this city on Friday suffering from a fracture of the skull, from the effects of which he died on Sunday morning. Mr. Janeeck was hit on the head with an ax, the deed being committed by a man who was employed by him on the farm.

Altho nobody saw the deed committed, the story goes that Mr. Janeeck and the hired man were engaged in clearing land, and the first known of the tragedy was when Mr. Janeeck went to the place where the two men had been working, where she found her husband lying on the ground in a senseless condition with his skull crushed in, while the shoes, hat and coat belonging to the hired man were lying near.

It is reported that the man who committed the deed was from Chicago, and was a heavy drinker, and came to work in the country with the hope of being able to break away from the drink habit, and during a fit of insanity murdered his employer. He was small of stature and altho reported to be 32 years of age, appeared much younger, many supposing he was a boy only about 15 years of age. He was subsequently captured and placed in the county jail at Friendship, and those who saw him say there is no doubt as to his insanity.

After Mr. Janeeck was found senseless were summoned and he was brought to this city and placed in Riverview hospital, where an operation was performed, but to no avail, he dying from his wounds on Sunday. He is survived by his wife and two children, and was quite well known in this city where he generally did his trading.

### Death of Mrs. Brown.

Mrs. Charles H. Brown, for half a century a resident of Grand Rapids, died at the home of her son, Burton L. Brown, on Saturday morning, April 6, aged 73 years.

Mrs. Brown was taken sick last August with an attack of pleurisy, and notwithstanding the fact that she recovered from the original ailment, she was able to be about more or less, she never regained her strength and gradually wasted away until the end came.

The deceased, whose maiden name was Julia E. Lyman, was born at Hinsdale, Berkshire County, Massachusetts, on the 20th of January, 1839. In 1862 she was married to Charles H. Brown and moved to Grand Rapids that same year, and has been a resident of this city ever since with the exception of four years spent in North Dakota. She is survived by one son, Burton L. Brown, her husband having died some sixteen years ago.

Mrs. Brown was a woman of unusually bright and alert intellect and until she was taken sick last August was as bright and cheerful as the average person only half her age. She was a woman whom it was a pleasure to meet at any time, and in her demise Grand Rapids loses one of its best citizens.

The funeral was held on Tuesday afternoon from the Methodist church, Rev. John Reynolds, presiding elder, of Janesville officiating.

### Catholics of Wisconsin Number 556,703 in 1912.

Wisconsin is seventh among the states in point of Catholic population, according to the 1912 edition of the official Catholic directory, just issued. The number of Catholics in the state is given as 556,703.

The directory gives the number of Catholics in the United States as 15,016,669, a gain of 396,808 over 1911. The number of priests is 17,401, an increase of 407. There are 13,339 churches, an increase of 478.

There are in the United States three cardinal archbishops, two titular archbishops, fourteen archbishops, ninety-seven bishops, two archbishops and fifteen abbots. Eighty-three seminaries are training 6,008 students for the priesthood, 229 colleges are teaching boys and 701 academies are teaching girls. The number of parochial schools is 5,119, and they have an attendance of 1,338,786. Two hundred and eighty-nine asylums care for 47,111 orphans.

### Hurt With Dynamite Cap.

Raymond Knuth, the 7 year old son of Will Knuth of the town of Sigel had the fingers of one hand pretty badly injured on Saturday by the explosion of a dynamite cap.

The little fellow had secured the cap from where his father had hid them in the granary and laid it on a stone and hit it with a hammer, the result being that his hand was torn quite a bit.

### Child Hurt by a Rig.

Lorinda, the two year old daughter of Mr. and Mrs. Otto Kester, was struck by the Johnson & Hill delivery rig on Saturday and bruised somewhat on one arm and one leg. It was reported at first that the little girl was seriously injured, but the result was only a few bruises.

### Clark Delegates Win.

Full returns in the 8th district show that the Clark delegates won out, they being E. G. Kretlow and A. G. Pankow the majorities given being 500 for Kretlow and 400 for Pankow.

### Supper and Sale.

St. Katharine Guild will hold a sale in Johnson & Hill's old store building on Friday afternoon and Saturday and a supper on Saturday evening. The public is cordially invited to attend.

W. T. Jones expects to leave on Saturday for Minnesota where he has a contract to do some ditching which will probably take him the greater part of the summer.

### Fable of the Young Man Who Belonged to All the Secret Societies in Town.

Once upon a time there was a Gashbo who imagined he was Kunning about the whole town and thought that he should be consulted about the time that the sun rose in the morning and set in the evening.

He was Exalted Ruler of the Ancient Order of Bang Starters, Chief Mowal in the United Congregation of Holmes, R. S. V. D. in the Hawks and P. D. Q. of the Buffalo, besides holding several Small offices in other organizations where there was a lot of work with the pay in the here, after.

Every time a new order was organized in the Balisek, Mr. Joiner got a new job, and he had enough emblem pins to last a day, and a different set of Regalia for each night in the week with a few Extra for Sunday afternoons.

He could cop out an office in a Secret society while an ordinary club was giving the halting sign to the outside guard.

He had the entire Ritual of 17 secret societies stored away in the Upper story of his trunk, and when he wasn't attending to the East and Rites of a deceased member he was trying to collect some of the money he had advanced for a delinquent brother.

Life was one merry round of Lodge dues and committee meetings and he felt like the most prominent citizen in town. The only drawback was the fact that not one of the offices carried a salary with it, and he had trouble finding enough time to attend to his own business.

When there was a new Postmaster to be appointed he did not know but his Lodge friends would insist on him taking the job, and he got all ready to accept, but somehow he was overlooked and it went to a friend of his who was never known to do anything for nothing, but who had quite a pull among the boys. He was a little disappointed, but was perfectly satisfied when one of his friends told him that his name had been mentioned but that the unanimous opinion was that he had about all he could attend to without saddling him with any more positions.

One morning he woke up to find the Sheriff in charge of his store. While he had been hunting for his friends they had been trading somewhere else because he was never in his place of business when they went there.

He was a little surprised at first but expected his friends would be Johnny-on-the-spot to help him out. However, as they had helped him out of business they did not feel that it was necessary to extend him any more aid.

He cut out the lodge business, gave his regalia to a rummage sale, moved to another town and started up again and at last reports were getting along nicely.

Moral—Lodge Emblems and the sword won't pass for legal tender with the jobbing houses.

### Have Evolved a Sure Thing.

You can trust the ladies when it comes to solving the problem of separating a fellow from his money.

Some time ago they took upon themselves the responsibility of raising enough money to keep the hospital running, and while it took a little time to get squared away before the wind with all their canvas pulling, it looks now as if they had solved the problem and would have enough money left to build a library, start a foundlings home and put up a Y. M. C. A. building with the savings. The new plan is known as a "Daisy Chain" and it is well named, for it is certainly a daisy.

The thing is started by one of the ladies entertaining five of her friends, each friend contributing the sum of 10 cents toward the general fund. Then these five ladies each entertain five more, who each contribute a dime apiece and so it goes. Now ten cents is not a very large sum of money, but if the thing is kept up for a time the aggregate eventually amounts to quite a bunch of money.

Three first lot contribute 50 cents toward the fund, the second lot \$2.50, which with the first contribution makes a total of \$3.00. This is a modest little sum, not enough to scare anybody. The next series brings in \$12.50, or a total of \$15.50. This is a nice healthy increase, and at the tenth series we find them taking in the sum of \$971,562.50, or a total up to date of \$1,222,703.00. After this time the dear girls won't have to hold more than one jambooree a week to keep things running in fine shape. It might be stated that the twentieth one of the series would be in \$7,954,713,164,062.50. What the total receipts at this time would be we leave the reader to figure out.

Notice to Savings Depositors. Interest Will be Paid July 1st.

All deposits made in our Savings Department on or before Friday, April 12th, will receive three months interest on July 1st.

This is the shortest time for which interest is paid and we would suggest that you take advantage of it.

### The Best Ever.

The company which will present "The Lion and the Mouse" at Daly's Theatre Saturday, April 27th has a really wonderful array of well known people enlisted in the ranks of the organization. The management do not believe in the too common system of "one or two giving the whole show," but have organized what is undoubtedly one of the strongest casts ever brought together.

## FIGHTING MACHINES.

It is a half century since Ericsson's Monitor was launched. We have just passed the anniversary of that event. It was an evolution in the art of naval armament which at the time seemed to promise a permanent change in theory and practice. What the Monitor did for us in the crisis which it was designed to meet is matter of history, says the Boston Post. That low-lying, vicious craft was perhaps the salvation of our navy. But what a change in the years that have since elapsed! The Monitor type has gone to the scrap heap, and the massive, towering, stupendous dreadnought has taken its place. Torpedobombs have come in, followed by torpedo destroyers, and the range of naval operations has been extended. Every maritime nation has equipped itself with submarines, and the very latest is a submarine that can fight above the water and descend with safety after delivering the fire of its battery. Under the water and above the land in the air the power of destruction is extending. What is the end of this development of the means of devastation? Logically, is it not the establishment of universal peace as an international duty?

Wherever the Romans lived in the days of the empire they carried luxury and art. They occupied for centuries a large part of the northern coast of Africa. It is not surprising therefore to learn by a dispatch from Tripoli that a body of Italian troops digging trenches near the Oasis of Siara, on the spot formerly occupied by Roman imperial gardens, has uncovered an ancient Greek Venus of remarkable beauty. The head and arms are missing, but the torso is in excellent preservation and reveals the features of the famous Capitoline Venus. The statue has been sent to Rome, where it will be placed in the National museum. In nearly every spot where soldiers have tapped the ground to throw up defensive works they have uncovered traces of the ancient Roman occupation of Tripoli, including tombs, mosaics and ruins of splendid villas.

There is a New York statute against the revelation by physicians of the secrets of the consultation room; but a New York judge has decided that it does not prevent a doctor from describing the services which he has performed when he finds it necessary to sue for the collection of his fee. In that case, the judge ruled, the physician may proceed with his action, alleging anything and everything that is necessary, without either directly or indirectly becoming liable for violation of the law. The decision would seem to be reasonable. It is a man who will refuse to pay a fair fee to his doctor.

A Greeley, Colorado, man claims to have perfected a seedless watermelon and is now experimenting with peaches crossed with sweet peas. He expects to get blossoms and peanuts from the same vine, the peanuts growing above ground instead of in the earth. He has hopes of producing a sweet pea plant by crossing corn and beans, and looks forward to growing a breakfast food which will include the qualities of coffee. In the meantime, where's Luther Burbank?

A Dutch prisoner, who was taking walking exercise in the courtyard of the Concorde Prison at Paris, suddenly made a running jump at the wall, which is 14 feet high and topped with iron spikes, mounted it like an ant, to the amazement of the jailers, jumped down on the other side, climbed 20 feet up a wire ladder, dropped by accomplices from an open window, and got away. He must be a real flying Dutchman.

Girls in a Massachusetts college have rejected the cap and gown as graduation garb in favor of the white dress, on the ground that the latter is more becoming. This will be another proof to the skeptical that higher education for women is a rank failure.

A physician remarks of a prominent invalid that his days are numbered, though nobody can tell how many remain. "That might be also said with perfect truth of the healthiest man in the land."

A boy who ran away from his home at New Haven, Conn., twenty years ago returned the other day with \$2,000.00. It is understood that his father did not meet him at the gate with a strap.

By hurling a custard pie into the face of a would-be robber a waitress in a Denver restaurant half-blinded him and saved the money in the cash box. As a weapon of defense the custard pie deserves the highest encomiums.

A Kansas dentist is reported to have discovered how to cause new teeth to grow in the jaws of people who have lost the ones with which nature furnished them. Let those who have swallowed their false teeth hope on.

A curfew law for husbands is advocated by a North Carolina man. But home is the peculiar domain of women, and the average husband will continue to show his gallantry by not poaching on a woman's preserves.

"No man has the right to marry on \$4 a week," says a Kansas judge. This blasts the hopes of some of the devoted army of lady boarding house keepers.

A German aeronaut says he thinks a transatlantic flight possible. There is no danger in thinking so provided he confines himself to thinking.

## SOCIALISTS ARE DEFEATED

## Milwaukee City Election a Sweeping Victory for Non-Partisan Candidates.

## BADING HAS 12,864 PLURALITY

Treasurer, Controller, All Aldermen-at-Large and Eighteen Ward Aldermen on Non-Partisan Ticket Are Elected—Record-Breaking Vote of 74,326 Is Polled.

Milwaukee.—The entire non-partisan city ticket, headed by Dr. G. A. Bading for mayor, has been elected by majorities ranging from 12,864 to 17,805. Bading's plurality over Emil Seidel is 12,864. Kotick, non-partisan candidate for city controller, polled the heaviest vote of his party.

The non-partisans elect by about the same majorities six aldermen-at-large, full term, two aldermen-at-large, to fill vacancies, and eighteen ward aldermen, while the socialists elect only seven ward aldermen, which with four hold-over aldermen-at-large, give them eleven.

The vote was a record one for Milwaukee city elections, 74,326 ballots being cast for the three majority candidates as follows: Bading, non-partisan, 43,664; Seidel, socialist, 30,800; Alshoff, prohibition, 1,062. Two years ago the total vote was 59,481, of which number Seidel, socialist, received 27,429, having a plurality of 7,109 over the republican and democratic candidates.

Dr. Bading carried 18 wards in the city, while Mayor Seidel had only 7 and most of these in the northwestern part of the town. Two years ago of the twenty-three city wards, Mayor Seidel carried fifteen. Bading has all the wards except the Tenth, Eleventh, Fourteenth, Twentieth, Twenty-first, Twenty-fourth and Twenty-fifth.

The four bond issues aggregating \$895,000 were carried by safe majorities to the gratification of all parties.

The next county board will be made up of 17 non-partisans and 2 socialists, against ten socialists, two democrats and four republicans in the present board.

The new city administration will go into power on Tuesday, April 16.

## TAFT AND CLARK LOSERS

Presidential Preference Primary Results in Victory for La Follette and Wilson Delegations.

Madison.—The contest in the presidential primaries resulted in a victory for Senator La Follette over President Taft in the republican primaries, and for Gov. Wilson over Speaker Clark in the democratic primaries.

Wisconsin is one of the few states which decide their presidential preference at a statewide primary. It was the first time it had been tried in the state and was watched with much interest. From the reports received it seemed that a very heavy vote was cast in both the republican and democratic primaries.

The fight on the democratic side was hotter than that on the republican side. From the latest returns received the indications are that Wilson will have at least twenty-two out of the twenty-five delegates. The two Clark delegates in the second district are probably elected, though the Wilson men claim the election of J. Bodden. The Ninth district is claimed by both Clark and Wilson.

## VOTERS CHOOSE SIX JUDGES

Higbee and Quinlan Elected in Sixth and Twelfth Circuits—No Other Contests.

Milwaukee.—Six circuit judges were chosen by the voters of Wisconsin, elections being held in the Fifth, Sixth, Seventh, Eleventh, Twelfth and Twentieth circuits.

Four judges were elected without opposition—Judge George Clemen in the Fifth; Judge Byron B. Park in the Seventh; Judge George A. Ross in the Eleventh; and Judge George Grimm in the Twelfth.

The contests were in the Sixth circuit, where the candidates were Judge B. C. Higbee, La Crosse; Robert S. Cowie, Whitehall, and L. P. Denoyer, La Crosse, and in the Twentieth circuit, the candidates being William B. Quinlan, Marinette, and James J. Gill, Oconto.

Higbee is elected by 2,000 plurality in the Sixth circuit and Quinlan is probably victorious in the Twentieth circuit.

## Depositors Paid in Full.

New Richmond.—Announcement has been made of liquidation of the People's bank at Hudson. Depositors have been paid off in full at a total loss of over \$31,000 to stockholders.

HOUSE PASSES BILL

NEW WOOL MEASURE GOES THROUGH WITH AID FROM REPUBLICANS.

189 TO 92 WAS THE VOTE

Issue Now Up to President—Majority Leaders Believe People Will Support Effort Whether Veto Is Used or Not.

Washington.—The house of representatives, by a vote of 189 to 92, passed the Democratic bill "requiring the tariff duties on wool, wool clothing, carpets and other products."

The measure is identical with the Underwood bill passed by the house last session and the Democratic majority preserved it intact from amendment by the Republicans in putting it through the house.

It provides a 20 per cent. ad valorem duty on raw wool, which amounts to about five cents a pound specific duty as compared with the 11 cents in the Aldrich-Payne law.

This and other reductions in the bill average about 47 per cent. and the effect, according to the Democrats, would be a material decrease in the price of clothing and other wool products.

Eighteen Republican progressives and two regulars—Nye and Stevens of Minnesota—voted with the Democrats in favor of the bill, and one Democrat—Francis of Ohio—voted against it.

Men Leave Their Work—Union Head Optimistic—Sees Resumption in All Fields Shortly.

Indianapolis, Ind.—With only two exceptions the suspension in the coal-mining industry of the country, which went into effect when the wage contracts between members of the United Mine Workers of America and the bituminous and anthracite coal operators expired, was general.

Approximately 400,000 miners are idle, the country will miss more than 1,000,000 tons of coal and the employees \$1,000,000 in wages.

President John P. White of the miners, before starting for his home in Oskaloosa, Ia., said he expected the mining men to return to work under the Cleveland agreement and return to work probably by April 20.

He also predicted a speedy adjustment of a wage contract in the anthracite field, when the miners and operators meet in Philadelphia on April 10.

London.—The proposal for the re-employment of the miners to work under the recently passed minimum scale bill has carried in a ratio of about three to two.

"WETS" GAIN IN MICHIGAN

Saloon Forces Made Net Advance of Five Counties in the State.

Detroit, Mich.—Incomplete returns from the 25 counties in Michigan which voted on the local option question give the saloon forces a net gain of five counties.

They won seven counties which have been in the "dry" column, while two counties which had been "wet" went "dry." The counties which went "dry" are as follows: Arenac, Grand Traverse, Ingham, Lake, LaPeere, Oakland, Ogemaw, Otsego, Presque Isle, Roscommon, Shiawassee. The counties which went "wet" are as follows: Antrim, Branch, Cass, Kalamazoo, Mecosta, Ogemaw, Oshtemo, Washtenaw. The greatest victory for the "wets" came in Ingham county, in which Lansing, the state capital, is located.

Anticent Men Victors.

Washington.—Protests of anticent men and temperance advocates against the action of the senate military committee in connection with the military in the army appropriation bill were so effective that it was restored in the measure as it was to be presented here.

Japanese Minister of War Dead.

Tokyo.—Minister of War, Ishimori died here. He had been a victim of tuberculosis for several years. He was fifty-nine years old.

We see that some of our exchanges are kicking because dictionaries have been sold to some school districts, the dictionaries being old reprints on which the copyright has expired and which must be forty years old. Now forty years is quite a stretch of time, to the average man or woman, more than it is to a dictionary. If some of these people who are kicking on obsolete dictionaries will take one of those 40-year-old ones and look it over carefully he will be surprised to find what a command they had of the English language four decades ago and how very much it resembled the language of today.

## FREE TUBERCULOSIS DISPENSARY ESTABLISHED

Racine, Wis., April 10th (Special.)—A free tuberculosis dispensary will be opened in Racine on the first of next month, according to arrangements just completed between the local anti tuberculosis association and the city authorities.

The funds raised by the local society through the sale of Red Cross Christmas Seals will be devoted to the maintenance of the dispensary which will be located on the top floor of the City Hall. The city is providing the quarters.

Mrs. Florence Lee of the Duluth Tuberculosis Commission, will probably be engaged to take charge. She will do the work of a visiting nurse and local doctors will take turns in donating a certain amount of their time each day at the dispensary. Doubtful cases will be taken to the dispensary for examination, and, where tuberculosis is found, they will be instructed and aided in caring for themselves.

Racine will be the first city in the state outside of Milwaukee to have a tuberculosis dispensary. When the new sanatorium is completed, furnishing a place where the cases who lack the facilities at home can be properly cared for without spreading the infection, Racine County will be well equipped for the fight to check the great plague which is causing so much suffering and death.

—WANTED—A good second hand safe. Apply to W. O. Barton, Village of Biron.

## FISHWAYS OF THREE RIVERS TO BE TESTED.

Tests of the efficiency of fishways in dams as a practical means of promoting the run of fish up streams will be made by the state fish commission this summer on three of the streams of the state, probably the Waubesa, Wisconsin and St. Croix rivers. Traps will be set in the fishways of the dams and men placed in charge for a month to note the number and kind of fish that make the ascent.

The law requires that fishways shall be built and maintained in dams across the streams of the state containing game fish, the purpose being to permit the passage of the fish. To maintain and supervise these fishways is a source of expense, and unless they serve the purpose for which they are installed the expenditure is useless. It is to determine this matter that watch will be kept on the three rivers named.

This plan was decided upon last Thursday at a meeting of the fish commission, composed of Governor Davenport, Gov. W. Peck, and J. O. Davidson, Gov. McGovern, chairman; John Alford and C. B. Walters of Oaksholt. Another test decided upon was to determine approximately how many of fish fry live after being transported from the hatcheries to the state's natural waters. The present experiment will have to do with lake trout. A definite number of healthy fry will be placed in scum tanks, from which they cannot escape, and then sunk and buoyed in the waters of Lakes Superior and Michigan at depths ranging from 20 to 500 feet.

It might be stated, parenthetically, that the state officials will not have much trouble in testing the fishways in the dams on the Wisconsin river, for there are none to test. Outside of this, however, they are all right.

## The Income Tax Law.

The general impression is that under the income tax law there will be no personal property tax levied during the coming year. This is a mistake. The city assessor will make his assessment in the regular way. Should an individual have sufficient income to come under the provisions of the income tax law, such person will be entitled to a deduction to the extent of personal property tax paid from the amount charged to him on account of the income tax. Another thing, the tax is on the amount over the exemptions. For example: An individual having an income of \$4,000 over all exemptions is assessed only in that amount (not on the total income) and the first \$1,000 pays the first rate, the second the next, and the third thousand the amount fixed for the third, and so on. It is generally understood that the whole \$4,000 will be assessed at the full amount. If a man had an income of \$4,000, for instance, he would pay 6 percent on only the \$1,000 over the \$3,000 limit.

Many also wonder what becomes of the income tax collected to enlighten on this point we will state that 10 percent goes to the state; 20 percent to the county and 70 percent to the city, town or village wherein the tax is assessed and collected.

A good reason is that many may be caught unaware by failing to make the required returns and that is that assessments to which we have become accustomed are made by a personal call on the income assessor will not be required to run after you but you must look for him and make your report by some fixed day otherwise, if coming under the new law, will be liable to a fine or to imprisonment.

Taken all in all the law appears as being eminently fair; it reaches out and operates where the property tax law would not; it aims to place the expense of our local government upon the governed according to their ability to pay and is in fact a substitute for the personal property tax, which every one admits has been a failure. It is a law which all political parties have been pledged to enact and now that it is a law and is written in these sheep bound volumes of state constitution by the highest tribunal of our commonwealth, it ought to receive a fair trial.

Co-operation of the taxpayers is invited to the end that it may be carried out fairly and be a step toward a more equitable system of taxation. —Green Bay Review.

## Occupying New Quarters.

R. M. Levin has moved his stock of drygoods, clothing and millinery into the Wood County National Bank Building block, and is gradually getting settled into shape to do business. When everything is arranged in the new place he will have a very nice store.

## NOTICE!

The U. S. government recently investigated the "lamp trust" under the Sherman Anti Trust Law, and as a result tungsten lamp prices have been reduced almost 25 percent. A 25 watt tungsten or mazda wire drawn latest improved lamp may now be purchased for 50 cents. We began selling at the new prices March 15th, so that our customers would immediately get the benefit of the reduction.

## NEWS FROM NEARBY PLACES

Fred Snake, probably the most aged Indian in the land, passed to the happy hunting grounds. Helpless and destitute, he had been taken in and cared for by Albert Big Thunder at the latter's home in the town of Elderon. His age is given as 120 years—and we may add that there seems to be good authority for such claim. Had such a man possessed power of observation and of sound thought and had he the gift of speech with which to clothe his thoughts, what a tale he might unfold. When Snake came into the world George Washington was still in the first form of his presidency. When Snake came into the world there was hardly a handful of white men west of Lake Michigan, and the Winnebagoes were then and for years afterward a power in the territory which is now embraced in Illinois and Wisconsin. —Wittenberg Enterprise.

The village of Arnet was visited by a disastrous fire on Saturday and it is reported that about all the business houses in the place were destroyed. The fire was first discovered in some straw in the rear of O. W. Breitenstein's store, and soon spread to that building, the flames driven by a strong north wind, quickly destroyed the Royal Neighbors' hall, an implement warehouse, Wenzelowski's saloon, Ryan's saloon, a barber shop and several sheds and barns in the rear of the buildings. Knowing that it was impossible to save some of the buildings, much of the contents were removed, and taken to places of safety, though it is said that many availed themselves of the opportunity to secure wearing apparel, groceries, liquid refreshments, etc.

Stevens Point Journal:—Within the past two or three days, William Oatley and James Corrigan, both of the town of Stockton, sold ten car loads of potatoes, free on board car for \$1.30 per bushel. The check received by one of the gentlemen amounted to something upwards of \$5,500. Although it is said that there are but few potatoes left in the country, from reliable sources it is learned that there are many thousand bushels still unsold.

## Fish and Game Seasons.

With the approach of summer the disciples of Isaac Walton will begin to hunt for their last year's fishing tackle, and it would be well for those to bear in mind that the seasons for the different species of fish found in this vicinity do not open simultaneously. The season for brook trout opens on April 15 and ends September 1. Bass, both large and small month, may be caught from June 1 to March 15. Pickerel, pike, muskellunge and catfish may be lawfully caught from June 1 until March 1. This law does not apply to pickerel in the Wisconsin river, which may be caught at this point at any time.

## SOUTH RUDOLPH

Mr. and Mrs. Peter Krommacker Sr., returned from their trip to Wrightstown, Brown County on April 6th after spending about three weeks with Mr. Krommacker's sister, Mrs. A. Manders, who is sick.

Joe Demski has sold eighty acres of his farm to Chas. Marzofka of South Rudolph. He received \$1,800 for same. He wants to sell the rest of his farm where the buildings are and he intends to move to Chicago where his brother lives. He has been down there looking around in northern Indiana and southern Michigan.

Gust Korwin started in work for Chas. Alberts last week. W. H. Dennison is up helping his son, Merritt, to make maple syrup. Miss Alice Chamberlain of Wausau is visiting for a short time at the Jacob Kuter home.

Nadolph has some rather muddy roads nowadays. Anton Wirtz had the misfortune of losing one of his new milk cows and a pair of twins.

Merritt Dennison has tapped his sugar bush and will soon be making maple syrup. Frank Kuter has moved to Grand Rapids where he intends to work for the city.

Ed. Johnson took his coat down town which he purchased from N. E. Warren of South Rudolph.

## Death of Fred Blake.

Stevens Point Journal:—The people of this city were greatly shocked this morning when the sudden death of Fred J. Blake, which occurred as the result of a stroke of apoplexy, at 5:30 this morning, in Milwaukee, became known. The funeral arrangements have not been made known, but Mrs. Blake, in telephoning to a friend this morning, said that the burial would take place either in Milwaukee or Racine.

Stevens Point Journal:—W. A. Baldauf, who has been a member of the local high school faculty for the past two years, and has also coached the various athletic organizations of the school, has resigned and accepted a very desirable position as teacher of mathematics and athletic coach in the Grand Rapids high school. Mr. Baldauf has been very successful in his work at the local school, both in the school room and on the athletic field, and has made many friends who, although they will regret his going away, will wish him success in his new field.

Robert Weeck of the town of Sigel was among the callers at the Tribune office on Saturday. Mr. Weeck reports that he had about a quarter of an acre of potatoes left in the ground last fall that he was unable to dig. This spring he has been digging them and with the exception of a few that were near the top of the ground and got frozen, the tubers are in as fine shape as if they had been kept in a cellar. In view of the prices that have prevailed during the past week or two, the potatoes are paying quite a profitable proposition.

## Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood. The skin must be cured through the skin. The pores must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of water-glycerin and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema." Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. We have been prescribing the D.D.D. remedy for years." We ourselves reach for the D.D.D. will tell you all about this great remedy.

For Spring and Summer Wear

We want you to see what we are offering in fine footwear this spring. We pay particular attention to the three essentials in footwear, namely:

Style, Fit and Wearing Qualities.

Let us show you what we have to offer in both Ladies' and Gentlemen's Shoes. If you are troubled with sore or lame feet let us fit you out for the summer.

Shoes for Gentlemen..... \$3.50 to \$5.00  
Shoes for Ladies..... \$2.00 to \$4.00
